

Wireless fuel level sensor

Wireless differential fuel level sensor

Simplicity and accuracy in fuel tank measurement.
Quick installation, easy connection,
built-in power supply.

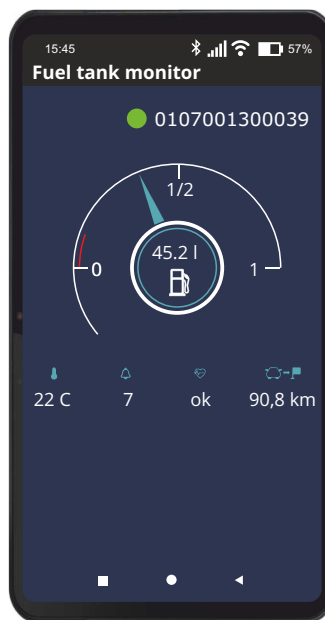

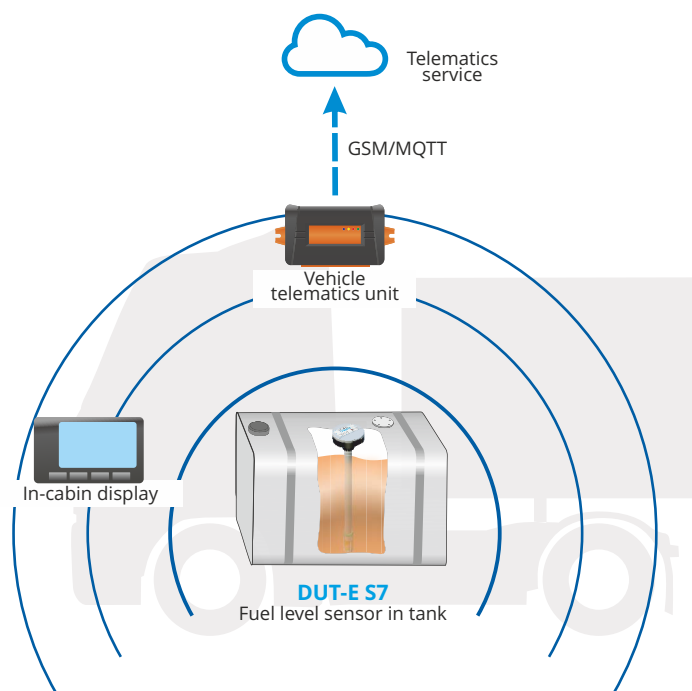

- ✓ No cable – increased resistance to vandalism
- ✓ No cable – quick installation of sensor and telematics unit
- ✓ No cable – explosion- and fire-safety of sensor

Specifications

Sensitivity to fuel level change	0.1 mm
Signal transmission range on the line of sight	50 m
Number of devices receiving signal simultaneously	any number
Data transmission interval	5 s
Increasing sensor length	up to 6000 mm
Built-in battery life	5 years

DUT-E S7 fuel level sensor transmits data simultaneously to multiple devices (BLE-radio):
telematics unit, in-cabin display, smartphones / tablets

Driver:
 monitoring fuel refills,
 filling out trip logs,
 fuel theft alert system

Fleet manager:
 fuel volume in tank registration
 when transferring vehicle
 from driver to driver

Fuel tank monitor mobile app:

- ✓ Real-time data monitoring
- ✓ Fuel level change log
- ✓ Fuel drain alert system
